

SAILBOAT RACER DECALS

- Position decal.
- Hold carrier sheet firmly so it can't move while you rub over decal with a burnisher or a dull pencil.
- Carefully remove carrier sheet. If transfer was incomplete, let carrier sheet fall back into place and transfer remainder.
- Lay backing paper over decal, reburnish.

HINTS & SUGGESTIONS

- Apply to clean, dry, dust-free surfaces. Dust can prevent transfer of decal, so keep sheet away from dust.
- Rubbing too hard, when transferring decals, may damage soft surfaces like wood.
- For maximum durability and a lustrous sheen, apply a light coat of gloss finish.

CAUTION: Cutting tool recommended. Use with care.

Conforms to Health Requirements of ASTM D4236
